Subject: Exemptions Under the Competitive Foods Regulation

Competitive Foods

This is to inform you of the most up to date list of exemptions under the Competitive Foods Regulation. These products are exempted from the "foods of minimal nutritional value" as defined in 7 CFR Part 210.11 (This does not mean that these products are approved or endorsed by the United States Department of Agriculture (USDA) or Food and Nutrition Service (FNS). Nor does an exemption indicate that these products have significant nutritional value. In addition, the exemption and memo should not be perceived as guidance or encouragement to Local Education Agencies (LEAs) concerning their possible purchase.

As always, please be aware that several companies with exempted foods produce similar products that are not exempted and are therefore still considered foods of minimal nutritional value. The exemption of one product does not mean that similar products or a family of products are exempted unless specifically stated in an exemption letter. The ingredients statement of each exempted food is included in the attached exemption list. This should allow schools to differentiate between exempted products and products similar to the exempted products.
